

TECHNICAL TOUR & DEMO ROOM GRAND OPENING FOR MEMBERS OF ÖTMV AND AES AUSTRIA

21. – 22. 4. 2026

On behalf of KV2 Audio, we are honored to invite members of ÖTMV and AES Austria to the grand opening of our brand-new Demo Room at our manufacturing facility in Milevsko, Czech Republic.

We deeply value our strong partnerships in Austria, where KV2 systems act at the center of various prestigious festivals, renowned theatres, sports arenas, and popular clubs.

We are delighted to personally show you where and how this award-winning technology is made.

YOUR VISIT WILL INCLUDE:

- **Exclusive Demo Room Grand Opening:** Be the very first visitors of our newly built Demo Room—the highlight of this visit. You will experience a comprehensive demonstration of our Point Source systems in a perfectly tuned environment, showcasing precise impulse response and phase alignment.
- **Guided Factory Tour:** See our meticulous production process, certified to ISO 9001 and ISO 15001 standards, which enables us to offer an industry-unique 10-year warranty on all electronics. You will witness firsthand how we maintain 100% control over our entire manufacturing process under one roof—from the woodwork to the electronics—as well as explore our extensive research and development facilities.
- **Technology Insight:** A concise technical overview of our Super Live Audio (SLA) principles. We will briefly discuss the key factors designed to minimize distortion and maximize dynamic range, ultra-fast settling times, superior speaker pulse response, Active Impedance Control, and many other aspects of our unique audio design.

DETAILS:

- **Location:** Nádražní 936, 399 01 Milevsko, Czech Republic
- **Date:** 21. – 22. 4. 2026
- **Logistics:** Bus from Volksoper Vienna to Milevsko and back. Departure is at 9:30 am on both days.
- **Accommodation:** Hotel Nautilus ****, Žižkovo Náměstí 20, 390 01 Tábor
